AssetChoice Related Account Pricing Related Account Pricing allows you to link up to four related accounts, eg immediate family, companies, trusts and self managed super funds in AssetChoice and receive a reduced fee. The end result is a fee discount of 0.05% off the first tier of account keeping fees.

Adviser fees For the InvestmentWrap account, you and your client may agree on an initial establishment fee, an ongoing advice fee per annum and a managed fund application fee. You may also agree on an upfront deposit fee of up to 5% on each deposit into the Cash Account for InvestmentWrap. For SuperWrap Personal Super Plan and Allocated Pension Plan, you and your client may agree on an initial contribution fee of up to 5% on the initial contribution and an ongoing advice fee as agreed between you and your client. These fees can be either dollar or percentage based.

Managed fund fees Managed fund fees are either reflected in the unit price (a buy/sell spread) or an ongoing management fee. For further details, refer to the managed fund's offer document. You and your client may also agree on a managed fund transaction fee. This fee must be disclosed on the Managed Fund Transaction form.

Custodial Holding Option The Wrap service offers an additional solution through the Custodial Holding Option for investment clients. This allows you to hold securities in your Wrap account and it will take away the share registry paperwork burden that you may be currently faced with. The Administrator will manage all the share registry paperwork, and will provide your adviser with the ability to participate in Corporate Actions and IPOs online. Cost \$300 p.a (InvestmentWrap Only)
